OBJECTIVE

Final-year B.Tech Information Technology student (2023–2027) with strong foundations in Java, Data Structures & Algorithms, Object-Oriented Programming, and full-stack web development. Passionate about solving real-world problems through software development and seeking a Software Engineer role to build scalable and impactful applications.

TECHNICAL SKILLS

Programming Languages: Java, C, JavaScript

Backend Technologies: REST APIs, Node.js, JWT Authentication, OAuth

Frontend Technologies: HTML5, CSS3, React.js

Database: MySQL

Developer Tools: Git, GitHub, VS Code, Figma

Core Competencies: DSA, OOP, Problem Solving, Debugging

EDUCATION

Bannari Amman Institute of Technology – B.Tech, Information Technology (2023-2027) - **CGPA: 8.65**

Maharishi Vidya Mandir Matric Hr. Sec. School – State Board, Tamil Nadu (2021-2023) - **Percentage: 91.17**

Lotus AN. Venkatachalam Chettiar School – ICSE, Tamil Nadu (2020-2021) - **Percentage: 96.17**

PROJECTS

AI-Powered Smart Survey Tool | GitHub Repository

- Served as Team Lead for an AI-powered survey platform selected among the Top 25 finalists from 5,000+ ideas in Statathon 2025 (MoSPI).
- Developed responsive web interfaces and integrated frontend components with REST APIs.
- Collaborated on integrating a FastAPI-based AI engine for intelligent survey analysis.

Battery Vehicle Booking System | GitHub Repository | Live

- Developed a vehicle booking web application using React.js and integrated it with custom REST APIs.
- Implemented secure REST APIs with JWT and Google OAuth for authentication.
- Designed responsive dashboards with Tailwind CSS.

ACHIEVEMENTS

Statathon 2025– Grand Finalist (MoSPI)

- Recognized as a Top 25 Grand Finalist nationwide among 5,000+ submitted ideas in Statathon 2025 (MoSPI) for developing and presenting an AI-powered Smart Survey Tool, competing against India's top student innovation teams in the national Grand Finale.

HackSagon 2025 – National-Level Hackathon (IEEE)

- Advanced to the Grand Finale after clearing two competitive evaluation rounds among 600+ participating teams, demonstrating strong problem-solving, software development, and teamwork skills.

LeetCode 100 Days of Coding | LeetCode profile

- Solved 400+ Data Structures & Algorithms problems on LeetCode, strengthening algorithmic thinking and problem-solving skills.
