SUMMARY

Final-year B.Tech Information Technology student proficient in Java, DSA, OOP, REST APIs, React.js, and MySQL. Team Lead of an AI-powered survey platform shortlisted among the Top 25 finalists from 5,000+ ideas in Statathon 2025 (MoSPI), and solved 400+ LeetCode problems.

TECHNICAL SKILLS

Programming Languages: Java, C

Web & Backend Technologies: HTML, CSS, React.js, REST APIs, JWT Authentication, OAuth

Database: MySQL

Developer Tools: Git, GitHub, VS Code, Figma

Core Competencies: DSA, OOP, Problem Solving, Debugging

EXPERIENCE

Student Trainer | Bannari Amman Institute of Technology (Sep 2025 – Oct 2025)

- Mentored students in Core Java, OOP, Collections, and DSA problem solving.
- Strengthened technical mentoring, communication, and problem-solving skills through teaching.

EDUCATION

Bannari Amman Institute of Technology – B.Tech, Information Technology (2023-2027) - **CGPA: 8.65**

Maharishi Vidya Mandir Matric Hr. Sec. School – State Board, Tamil Nadu (2021-2023) - **Percentage: 91.17**

Lotus AN. Venkatachalam Chettiar School – ICSE, Tamil Nadu (2020-2021) - **Percentage: 96.17**

PROJECTS

AI-Powered Smart Survey Tool | GitHub Repository

- Developed a government survey management platform for survey creation, response collection, AI-assisted question generation, and region-wise analytics.
- Developed RESTful APIs using Java, Spring Boot, JWT Authentication, integrated Twilio WhatsApp/SMS notifications, and collaborated on backend integration.
- Integrated FastAPI AI service leveraging embeddings and semantic search for intelligent survey question generation.

Battery Vehicle Booking System | GitHub Repository | Live

- Developed a vehicle booking web application using React.js and integrated it with custom REST APIs.
- Implemented secure REST APIs with JWT and Google OAuth for authentication.
- Designed responsive dashboards with Tailwind CSS.

ACHIEVEMENTS

Statathon 2025 - Grand Finalist (MoSPI)

- Recognized as a Top 25 Grand Finalist nationwide among 5,000+ submitted ideas in Statathon 2025 (MoSPI) for developing and presenting an AI-powered Smart Survey Tool, competing against India's top student innovation teams in the national Grand Finale.

HackSagon 2025 - National-Level Hackathon (IEEE)

- Advanced to the Grand Finale after clearing two competitive evaluation rounds among 600+ participating teams, demonstrating strong problem-solving, software development, and teamwork skills.

LeetCode 100 Days of Coding | LeetCode profile

- Solved 400+ LeetCode problems covering Data Structures, Algorithms, and problem-solving.
